Census 2020 and YOU!

By now you should have received your invitation to respond to the 2020 Census. The United States needs your help by providing basic information about **all** adults, children, and babies living or staying at **your address**. Your participation will help direct much needed funding to local communities for schools, roads, and other public services. Consider responding while you are sheltering-in-place. Remember your response makes our community stronger!

If you do not have a smart phone, don't worry, there will be other ways to complete the Census in the coming months. However, as this is an online first Census, if you are able to complete the Census online, that is the preferred method.

If you have questions, please leave a message at 510-747-7500 as the voicemail system is checked daily.

Be well,

Mastick Staff
